Reading

K. Read the text carefully. (3)

In many countries, people know more than one language. Knowing different languages may help people have a better future in their education and job and have a nice understanding of foreigners living around the world. For example, Indians should know English besides their native language if they want to study at university or have a good job .

If someone knows just one language, he is called a "monolingual" and if he knows two languages, he is a "bilingual". Despite learning a foreign language is not easy, there are more than one billion bilinguals around the world that their second language varies according to their needs and interests. That is why children learn a foreign language just from the elementary school. Scientists believe that a child can learn a language as quickly as possible, so it's better to learn a new language when you are young.

Answer the questions.

1. Which word in *paragraph 2* means " without taking any notice"?

.....
