■ c. متن زیر را با دقت بخوانید و به سوال‌های آن پاسخ کامل دهید.

When you enter high school, it often happens to you to give a speech in your class. Many students find this a very difficult task (duty). They often don't know what to say, and they don't know how to say it. This happens to us because we aren't taught any social abilities in our schools. We don't learn how to communicate with others, how to make friends, or even how to speak to others. So, when we grow up and enter the society, we can't face real situations and perform well in them. Maybe, it's time to look at our educational system from this aspect and change it so that it can fit our children for life.

82. Why isn't the writer happy with our system of education?

..... .

83. What should our educational system do to make our social abilities better?

..... .

84. What does the pronoun "it" ,in the last sentence, refer to?

..... .

■ d. متن زیر را با دقت بخوانید و بهترین گزینه را انتخاب کنید.

Children who seem clever and have normal sight and hearing ability may have learning disabilities such as dyslexia; difficulty in reading, dysgraphia; difficulty in writing, dyscalculia; difficulty with numbers, and auditory memory problems that stop the child from remembering what has just been said. Considered "invisible" handicaps, such learning disabilities can be found by alert parents before the child goes to school. If the child at about thirty months is not developing normal language skills, something is wrong. A child who cannot do puzzles or put pegs in holes doesn't have perceptual motor skills. Kindergartners should recognize the ABCs. First graders may commonly reverse their letters, writing a d for a b, but if they are still doing this at the start of the second grade, they should be tested for learning disabilities. Proper and early treatment is necessary.

85. The writer's purpose in this passage is to

- a) describe various types of learning.
- b) explain why some children have dyslexia.
- c) warn parents of the signs of learning disabilities.
- d) describe kindergartners' skills.
