ج: متن زیر را بخوانید و به سوالات پاسخ دهید. (۳)

A new study shows that having a low social life can be bad for our health. The study was on monkeys. Researchers from Duke university in the USA checked the behavior and of 45 female monkeys and found that those with a lower social life had more health problems.

The monkeys were in five group of nine. The researchers gave the monkeys in each group time to get to know each other. Then they took one monkey from each group and put her into another group.

This meant she was " the new girl" and was at the bottom of the group. When scientists checked the health of the monkeys, they found that " the new girl" was healthier than the other monkeys.

**Questions:**

48. How many monkeys were in each group?
49. What happened to " the new girl" in each group?
50. The word ..... shows that the monkeys can have babies.
51. They found that the new girl was healthier than the other monkeys.

**a. True**

**b. False**
